8 MOVEMENT OF BOATS TO AND FROM FOREMARK RESEVOIR

In order to prevent the spread of non-native species there is a requirement to ensure that boats are clean before they visit the site using the principle of Check, Clean, Dry,
<http://www.nonnativespecies.org/checkcleandry/index.cfm>

This includes:

CHECK your equipment and clothing for live organisms – particularly in areas that are damp or hard to inspect.

CLEAN and wash equipment, footwear and clothing thoroughly. If you do come across any organisms, leave them at the water body where you found them.

DRY all equipment and clothing – some species can live for many days in moist conditions. Make sure you don't transfer water elsewhere.

It is imperative that the Check, Clean Dry principles are adhered to before the boat is launched elsewhere.
